

# BEING CREATIVE WITH WEB DEVELOPMENT

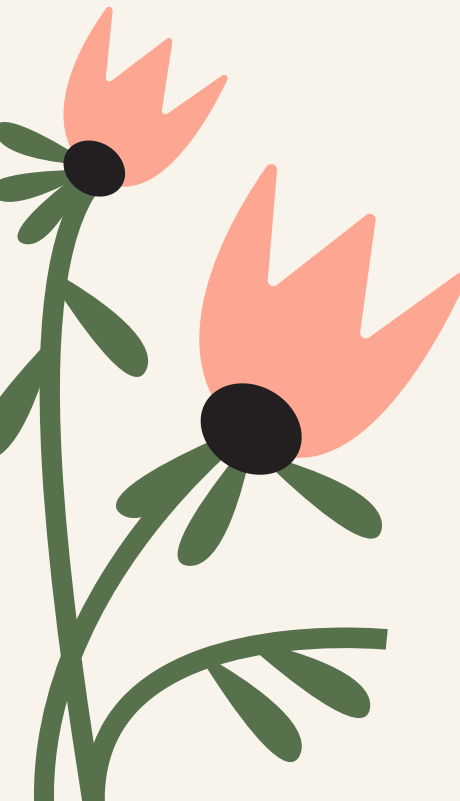

Introduction

# ICE BREAKER

---

If you could travel anywhere in the world, where would you go and what would you want to do there?

# INTRODUCING WEB DEVELOPMENT

Web development is like building cool things on the internet, just like creating a special place online where you can share your ideas and interests with others.

# WHAT IS THE INTERNET?

The internet is like a big web that connects computers all over the world, just like how we talk to our friends online!

# WHAT IS WEB DEVELOPMENT?

- 
- 
- Websites are like magical pages on the internet that you can visit to find fun stuff, games, videos, and more!
  - Examples of popular websites like Tynker, YouTube, etc.
- 
- 

# PROJECT

Let's create a landing page  
for your YouTube channel.

- You can share more about yourself, your favourite things, and your YouTube channel with your friends.
- Let's brainstorm ideas for your website.
- What are your favourite hobbies?
- What colors do you love?
- What do you want your website to be about?"

# HOMEWORK

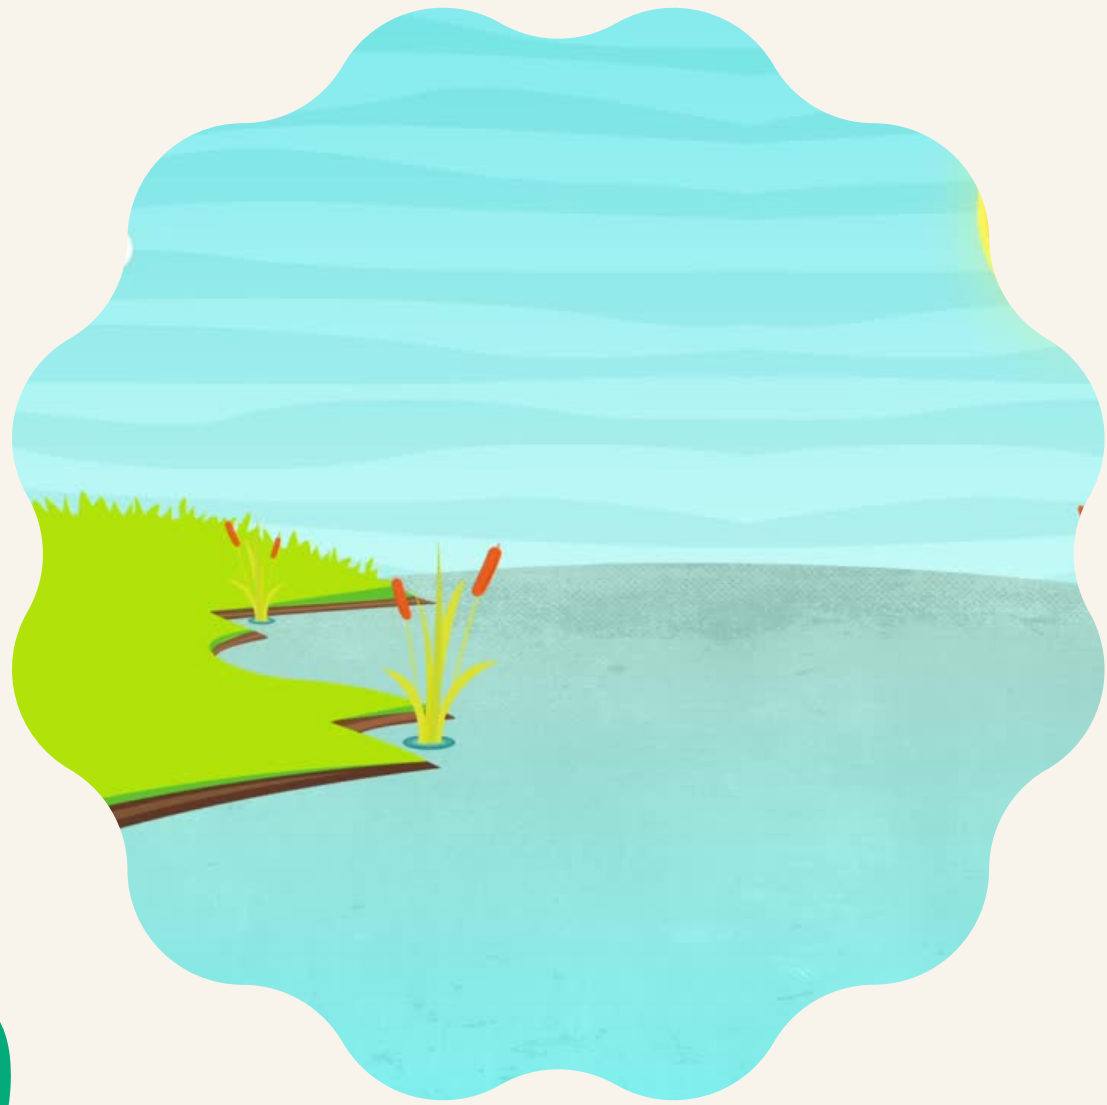

How to add an image in  
HTML and CSS.

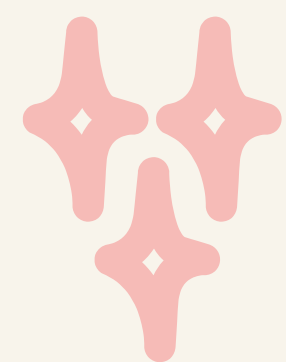

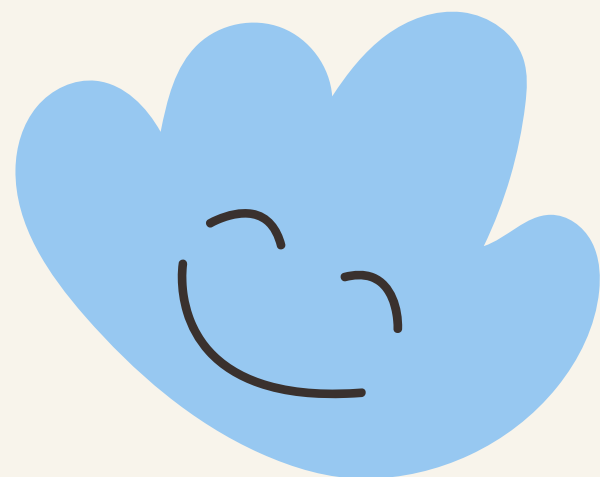

# CONCLUSION

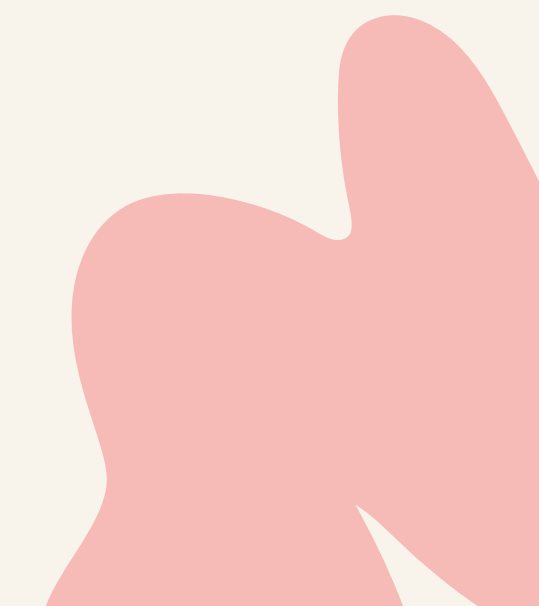

Today, we explored web development on Tynker and worked on creating a personal website you can share with your friends.
