

EXPLORING MATH WITH PYTHON

Wrapping Up!

ICE BREAKER

If you could be any superhero, which superhero would you be and why?

PROJECT

* Math Wizard Challenges

`print("Let's be math wizards and solve
some cool problems!")`

`result1 = 2 + 3`

`print("2 plus of 3 is:", result1)`

`result2 = 10 * 3`

`print("10 multiplied by 3 is:", result2)`

`result3 = 10 / 2`

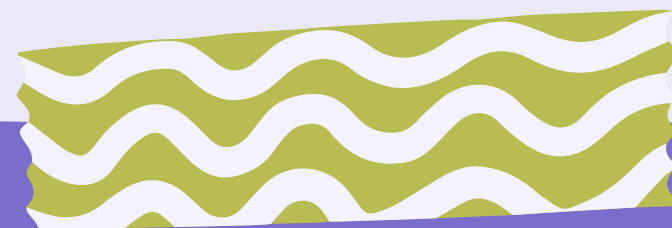

`print("10 divided by 2 is:", result3)`

`result4 = 3 - 2`

`print("3 subtraced from 2 is:", result4)`

SEE YOU IN FALL!
